

Graff-Off Plastic safe

NPSL's most popular product for fast and effective graffiti removal on plastic surfaces

Description

Nordic Graff-Off Plastic Safe is an industrial strength graffiti remover used for removing graffiti from non-porous surfaces such as metal, tiles, plastics and painted surfaces. Extremely effective for removal of marker pen, spray paint, scuff marks and glue residues. It is designed to be environmentally and user friendly as it is neutralised by water and is fully biodegradable.

Application

For hard smooth surfaces apply with a clean cloth and wipe off simultaneously. For rough or textured surfaces, spray on and leave to react (use a soft bristled brush to agitate and aid reaction). Then remove graffiti with a brush, pad or cloth and wash surface with water or pressure washer to remove residues.

IMPORTANT - PLEASE READ THE DATA SHEET FOR ALL SAFETY INFORMATION PRIOR TO USE.

About Nordic Products and Services Ltd

Since 1994 Nordic have earned a reputation within the industry as the premier supplier of environmentally friendly graffiti cleaning products. Protection of the environment has always been of paramount importance to Nordic. Our policy of providing safe to use products has enabled Nordic to establish long term relationships with nationally recognised organisations, local authorities and contract service companies. Our technical sales and support team, product range and contract cleaning services provide the market with total graffiti removal and prevention solutions.
