

Pro-Liquid

NPSL's fast acting liquid for all type of graffiti removal.

Description

Nordic Pro-Liquid is an industrial strength graffiti remover for use on all surfaces except plastic. Highly effective on aerosol paint, marker pen, ink and even tippex, Pro-Liquid has been formulated to be used by trained graffiti removal specialists as part of our "Professional cleaning" range. It is designed to be environmentally and user friendly as it is neutralised by water and is fully biodegradable.

Application

For hard surfaces apply with a clean cloth and wipe off simultaneously. For porous brickwork and stone spray on and leave to react (use a soft bristled brush to agitate and aid reaction). Then remove graffiti with a brush, pad or cloth and wash surface with water or pressure washer to remove residues.

IMPORTANT - PLEASE READ THE DATA SHEET FOR ALL SAFETY INFORMATION PRIOR TO USE.

About Nordic Products and Services Ltd

Since 1994 Nordic have earned a reputation within the industry as the premier supplier of environmentally friendly graffiti cleaning products. Protection of the environment has always been of paramount importance to Nordic. Our policy of providing safe to use products has enabled Nordic to establish long term relationships with nationally recognised organisations, local authorities and contract service companies. Our technical sales and support team, product range and contract cleaning services provide the market with total graffiti removal and prevention solutions.
